

# WE'RE HIRING

## SOFTWARE DEVELOPER

We are looking for a passionate and motivated Software Developer Intern to join our product development team. This role offers hands-on experience in developing, testing, and maintaining software applications, updating the company website, and contributing to innovative solutions that enhance STEM education and support our mission.

### Responsibilities

- Assist in the development, testing, and maintenance of web and mobile applications to support MITzKITS programs.
- Support the implementation and technical updates of the company website, ensuring it is up-to-date, user-friendly, and fully functional.
- Integrate new features for products and improve user experience.
- Assist in optimizing applications for speed and scalability.
- Write clean, efficient, and well-documented code.
- Troubleshoot and debug software issues with guidance from senior team members.
- Stay updated on emerging technologies and best practices, applying them to enhance development processes.

### Qualifications

- Diploma or Bachelor's degree in Computer Science, Software Engineering, Information Technology, or a related field.
- Basic experience in software development (preferably Python, Java, or similar).
- Ability to work collaboratively in a team environment and communicate technical concepts clearly.
- Strong attention to detail and commitment to delivering high-quality work.
- Ability to manage time effectively and meet deadlines.

Women are encouraged to apply
